Test <#001>	
Description	Send a new message logged in as provider0. Send it to admin, with a subject of “Hi there”, a tag of “GREETING” and a body of “This is a test”. Check that, if subject and body are left blank, they have a “Must not be blank” error. Check that, if the recipient is edited using “Inspect element” to have a value of 0, a “The message must have recipients” error appears.
Expected	The message should appear in provider0’s message list. Note that it is not expected to appear anywhere for provider0.
Outcome	It's behaving as expected.
Notes	<i>Intentionally left blank</i>

Test <#002>	
Description	Send a broadcast logged in as admin with subject “Hey”, body “How do you do” and the tag that appears by default. Check that, if you leave the fields as they appear when opening the form, “Must not be blank” errors are shown for subject and body.

Expected	All actors (including the admin) should receive the message. The tag should be “SYSTEM”. If blank, the errors specified appear.
Outcome	It's behaving as expected
Notes	<i>Intentionally left blank</i>

Test <#003>	
Description	Logged in as admin, delete the message with subject “Hey”. This is done by going to the message list, finding the message and clicking the “Delete” link. Then do it again.
Expected	The “DELETED” tag should appear the first time, and it should be properly deleted the second time.
Outcome	It's behaving as expected.
Notes	<i>Intentionally left blank</i>

Test <#005>	
Description	The system language must be changed to Spanish and the tests above repeated.
Expected	All the messages not pertaining to actual inputted data must appear in Spanish.
Outcome	All data is shown in Spanish.
Notes	<i>Intentionally left blank</i>
