Notes	

Use case 001: Register as a Rookie/Auditor

Description

A not authenticated user wants to register into the system as a Rookie/Auditor. In order to do so, the user firstly displays the registration form and then enters the necessary data.

Access

In the menu, "Sign up as a rookie" and "Sign up as an auditor" to access the Rookie/Auditor's registration form.

Tests

Test #001	
Description	You must display the Rookie/Auditor's registration form. The form shows the following information: - Username. - Password. - Confirm password. - Name(s). - Surname(s). - VAT. - Photo URL. - E-mail. - Phone number. - Address. - Terms and Conditions' checkbox. And some information related to the credit card: - Holder. - Make. - Card number. - Expiration month. - Expiration year. - CVV.
Expected	All the information shown above should be displayed.
Outcome	**All correct**

Notes	URL to register as a Rookie/Auditor: /rookie/rookie/register.do and /auditor/auditor/register.do
Test #002	
Description	You must display the Rookie/Auditor's registration form. Enter the following information: - Username: "". - Password: "". - Confirm password: "". - Name(s): "". - Surname(s): "". - Photo URL: "". - E-mail: "". - Phone number: "". - Address: "". - Terms and Conditions' checkbox: not checked. And some information related to the credit card: - Holder: "". - Make: "". - Card number: "". - Expiration month: "". - Expiration year: "". - CVV: "". Now try to save the Rookie/Auditor.
Expected	You should get a "Size must be from 5 to 32" error in the username and confirm password field; a "Must not be blank" error in the name, surnames fields; a "Passwords do not match" in the password field; a "Invalid VAT" at the VAT field; a "Not valid email" in the e-mail field; "Invalid credit card number" in the credit card field; a "Invalid expiration date" at the expiration month and expiration year fields; a "CVV must be a value between 100 and 999" in the CVV field; and "You must accept the Terms and Conditions of Acme Rookies" in the terms and conditions' checkbox.
Outcome	**All correct** **An actor who is not authenticated as administrator should be able to register a new auditor.**

Notes	URL to register as a Rookie/Auditor: /rookie/rookie/register.do and /auditor/auditor/register.do

Test #003	
Description	You must display the Rookie/Auditor's registration form. Enter the following information: - Username: "". - Password: "1234". - Confirm password: "1234". - Name(s): "". - Surname(s): "". - VAT: "". - Photo URL: "". - E-mail: "". - Phone number: "". - Address: "". - Terms and Conditions' checkbox: not checked. And some information related to the credit card: - Holder: "". - Make: "". - Card number: "". - Expiration month: "". - Expiration year: "". - CVV: "". Now try to save the Rookie/Auditor.
Expected	You should get a "Size must be from 5 to 32" error in the username field; a "Must not be blank" error in the name, surnames fields; a "Invalid VAT" at the VAT field; a "Not valid email" in the e-mail field; "Invalid credit card number" in the credit card field; a "Invalid expiration date" at the expiration month and expiration year fields; a "CVV must be a value between 100 and 999" in the CVV field; and "You must accept the Terms and Conditions of Acme Rookies" in the terms and conditions' checkbox.
Outcome	**All correct**

Notes	URL to register as a Rookie/Auditor: /rookie/rookie/register.do and /auditor/auditor/register.do

Test #004

Description	You must display the Rookie/Auditor's registration form. Now inspect the HTML code and look for any hidden information.
Expected	There should not be found any hidden information.
Outcome	**All correct.**
Notes	URL to register as a Rookie: /rookie/rookie/register.do and /auditor/auditor/register.do

Test #005

Description	You must display the Rookie/Auditor's registration form. Enter a username that already exists in the "Username" field (that is, for example "rookie1"). Then provide correct data for the rest of the fields, accept "I accept the terms and conditions of Acme Rookies" checkbox and hit "Save".
Expected	There should prompt an error message saying, "Invalid username".
Outcome	**All correct.**
Notes	URL to register as a Rookie/Auditor: /rookie/rookie/register.do and /auditor/auditor/register.do

Test #006

Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**System language switch button inverted.**

Notes	URL to register as a Rookie/Auditor: /rookie/rookie/register.do and /auditor/auditor/register.do

Use case 002: Register as a Administrator

Description

An already existing administrator wants to register into the system a new Administrator. In order to do so, the user firstly displays the registration form and then enters the necessary data.

Access

In the menu and logged in as an administrator, "Register a new administrator" to access the Rookie/Auditor's registration form.

Tests

Test #001	
Description	You must display the Administrator's registration form. The form shows the following information: - Username. - Password. - Confirm password. - Name(s). - Surname(s). - VAT. - Photo URL. - E-mail. - Phone number. - Address. - Terms and Conditions' checkbox. And some information related to the credit card: - Holder. - Make. - Card number. - Expiration month. - Expiration year. - CVV.
Expected	All the information shown above should be displayed.
Outcome	**All correct**

Notes	URL to register as a Administrator's: /administrator/administrator /register.do

Test #002

Description	You must display the Administrator's registration form. Enter the following information: - Username: "". - Password: "". - Confirm password: "". - Name(s): "". - Surname(s): "". - Photo URL: "". - E-mail: "". - Phone number: "". - Address: "". - Terms and Conditions' checkbox: not checked. And some information related to the credit card: - Holder: "". - Make: "". - Card number: "". - Expiration month: "". - Expiration year: "". - CVV: "". Now try to save the Administrator.
Expected	You should get a "Size must be from 5 to 32" error in the username and confirm password field; a "Must not be blank" error in the name, surnames fields; a "Passwords do not match" in the password field; a "Invalid VAT" at the VAT field; a "Not valid email" in the e-mail field; "Invalid credit card number" in the credit card field; a "Invalid expiration date" at the expiration month and expiration year fields; a "CVV must be a value between 100 and 999" in the CVV field; and "You must accept the Terms and Conditions of Acme Rookies" in the terms and conditions' checkbox.
Outcome	**All correct**
Notes	URL to register as a Administrator: /administrator/administrator/register.do

Test #003

Description	You must display the Administrator's registration form.
	
	Enter the following information:
	    - Username: "".
	    - Password: "1234".
	    - Confirm password: "1234".
	    - Name(s): "".
	    - Surname(s): "".
	    - VAT: "".
	    - Photo URL: "".
	    - E-mail: "".
	    - Phone number: "".
	    - Address: "".
	    - Terms and Conditions' checkbox: not checked.
	
	And some information related to the credit card:
	    - Holder: "".
	    - Make: "".
	    - Card number: "".
	    - Expiration month: "".
	    - Expiration year: "".
	    - CVV: "".
	
	Now try to save the Administrator.

Expected	You should get a "Size must be from 5 to 32" error in the username field; a "Must not be blank" error in the name, surnames fields; a "Invalid VAT" at the VAT field; a "Not valid email" in the e-mail field; "Invalid credit card number" in the credit card field; a "Invalid expiration date" at the expiration month and expiration year fields; a "CVV must be a value between 100 and 999" in the CVV field; and "You must accept the Terms and Conditions of Acme Rookies" in the terms and conditions' checkbox.
Outcome	**All correct.**
Notes	URL to register as an Administrator: /administrator/administrator/register.do

Test #004

Description	You must display the Administrator's registration form. Now inspect the HTML code and look for any hidden information.
Expected	There should not be found any hidden information.
Outcome	**All correct.**
Notes	URL to register as an Administrator: /administrator/ administrator/register.do

Test #005	
Description	You must display the Administrator's registration form. Enter a username that already exists in the "Username" field (that is, for example "rookie1"). Then provide correct data for the rest of the fields, accept "I accept the terms and conditions of Acme Rookies" checkbox and hit "Save".
Expected	There should prompt an error message saying, "Invalid username".
Outcome	**All correct**
Notes	URL to register as an Administrator: /administrator/administrator/register.do

Test #006	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**System language switch button inverted.**
Notes	URL to register as an Administrator: /administrator/administrator/register.do

Use case 003: Register as a Provider

Description

A not authenticated user wants to register into the system as a Provider. In order to do so, the user firstly displays the registration form and then enters the necessary data.

Access

In the menu, "Sign up as a provider" to access the provider's registration form.

Tests

Test #001	
Description	You must display the Provider's registration form. The form shows the following information: - Username. - Password. - Confirm password. - Name(s). - Surname(s). - Make. - VAT. - Photo URL. - E-mail. - Phone number. - Address. - Terms and Conditions' checkbox. And some information related to the credit card: - Holder. - Make. - Card number. - Expiration month. - Expiration year. - CVV.
Expected	All the information shown above should be displayed.
Outcome	**All correct**
Notes	URL to register as a Provider: /provider/provider /register.do
Test #002	

Description	You must display the Provider's registration form.
	Enter the following information:
	- Username: "".
	- Password: "".
	- Confirm password: "".
	- Name(s): "".
	- Surname(s): "".
	- Make: "".
	- Photo URL: "".
	- E-mail: "".
	- Phone number: "".
	- Address: "".
	- Terms and Conditions' checkbox: not checked.
	And some information related to the credit card:
	- Holder: "".
	- Make: "".
	- Card number: "".
	- Expiration month: "".
	- Expiration year: "".
	- CVV: "".
	Now try to save the Provider.
Expected	You should get a "Size must be from 5 to 32" error in the username and confirm password field; a "Must not be blank" error in the name, surnames and make fields; a "Passwords do not match" in the password field; a "Invalid VAT" at the VAT field; a "Not valid email" in the e-mail field; "Invalid credit card number" in the credit card field; a "Invalid expiration date" at the expiration month and expiration year fields; a "CVV must be a value between 100 and 999" in the CVV field; and "You must accept the Terms and Conditions of Acme Rookies" in the terms and conditions' checkbox.
Outcome	**All correct.**
Notes	URL to register as a Provider: /provider/provider/register.do
Test #003	

Description	You must display the Provider's registration form.

Enter the following information:
- Username: "".
- Password: "1234".
- Confirm password: "1234".
- Name(s): "".
- Surname(s): "".
- Make: "".
- VAT: "".
- Photo URL: "".
- E-mail: "".
- Phone number: "".
- Address: "".
- Terms and Conditions' checkbox: not checked.

And some information related to the credit card:
- Holder: "".
- Make: "".
- Card number: "".
- Expiration month: "".
- Expiration year: "".
- CVV: "".

Test #006

Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.

Outcome	All correct.
Notes	URL to edit the profile: /provider/provider/edit.do URL to display the profile: /provider/display.do

Use case 008: Make an application as a Rookie

Description

A rookie user wants to apply to a position. In order to do so, the user firstly displays the list of available positions and then enters clicks the option apply.

Access

In the menu, "Login" and use the credentials rookie1/rookie1. Once logged in, go to Applications > Positions to Apply.

Tests

Test #001	
Description	Positions to apply will show you a list with the positions where the user can apply. Select one by clicking on the option Apply.
Expected	The application is sent and the system redirects you to the list of your applications, where said application is listed with the current system date.
Outcome	**Works as expected.**
Notes	
Test #002	
Description	Using post hacking, change the id of the position to Apply to one that is not listed in the view "Positions to apply". Now click on "Apply."
Expected	You should be redirected to the listing of your applications but the system will have not performed the transaction (you can order by "Application moment" and see that there is no new applications).
Outcome	**Not working as expected, tried using the ID of a cancelled position and the application was saved and shown on the list.**
Notes	URL of the option Apply: /application/create.do?positionId=xxxx
Test #003	

Description	Order the list of positions to apply by any of the attributes (title, deadline, profile required, salary, ticker, company and is cancelled)
Expected	The order must change accordingly to the specified parameters.
Outcome	**Works as expected.**
Notes	
Test #004	
Description	Click on the "Display" option.
Expected	In each row, the option display must redirect to the display view of said position.
Outcome	**Works as expected.**
Test #005	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**Apart from the flags being the other way around, everything works the same as above.**
Notes	

Use case 009: List your applications as a Rookie

Description

"My Applications" will show you a list with the applications you have done as a rookie. It will list all the application regardless its status.

Access

In the menu, "Login" and use the credentials rookie1/rookie1. Once logged in, go to Applications > My Applications.

Tests

Test #001	
Description	Click on the display option.
Expected	The system will redirect you to the display view of the selected application.
Outcome	**Works as expected.**
Notes	URL of an application display: /application/display.do?applicationId=xxxx
Test #002	
Description	Using post hacking, change the id of the application in the "Display" option to one that is not of that rookie. Now click on "Display."
Expected	You should be redirected to display application view but it won't display the application data. Instead it will say "You don't have permission to access this page."
Outcome	**Works as expected.**
Notes	URL of the option Apply: /application/display.do?applicationId=xxxx
Test #003	

Description	Click on the edit option.
Expected	The system will redirect you to the edit view of the selected application.
Outcome	**Works as expected.**
Notes	URL of an application display: /application/edit.do?applicationId=xxxx

Test #004	
Description	Using post hacking, change the id of the application in the "Edit" option to one that is not of that rookie. Now click on "Edit".
Expected	You should be redirected to edit application view but it won't display the edit form. Instead it will say "You don't have permission to access this page."
Outcome	**Works as expected.**
Notes	URL of an application display: /application/edit.do?applicationId=xxxx

Test #005	
Description	Order the list of application by any of its attributes (application moment, position, status and submitted moment).
Expected	The order must change accordingly to the specified parameters.
Outcome	**Works as expected.**
Notes	

Test #006	
Description	List the application has pagination.(You must apply at least 5 times in the same position.) Click on all the pagination links that are shown: *First*, *Prev*, *Next* and *Last*.
Expected	There should not appear any exception or error, and the page must be the same was expected.

Outcome	**Pagination doesn't work, it throws an 404 error when clicking Next.**
Notes	URL to list sponsorship: /sponsorship/list.do
Test #007	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**Apart from the flags being the other way around, everything is the same as above.**
Notes	

Use case 010:List companies

Description

An arbitrary user wants to see some more details about the companies in the system. In order to do so, the user lists the companies in the system and selects the desired one to obtain a view with its details.

Access

Login – to access the system. (optional)
Companies – to retrieve the whole lists of companies in the system.
In the companies list, click on the button View profile to display it.
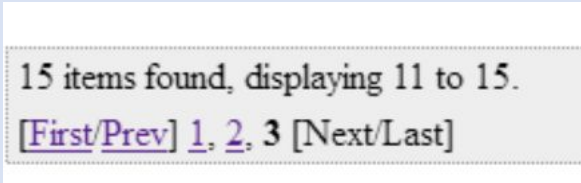

Tests

Test #001	
Description	List the companies in the system as an arbitrary user. Check that the listing shows the following information: - Commercial name. - E-mail. - Phone number. - Address.
Expected	All the information shown above should be displayed.
Outcome	Information shown above ¿
Notes	URL to list companies: /company/list.do
Test #002	

Description	List the companies in the system as an arbitrary user.
	Click on all the pagination links that are shown: *First*, *Prev*, *Next* and *Last*.
Expected	There should not appear any exception or error.
Outcome	15 items found, displaying 11 to 15. [First/Prev] 1, 2, 3 [Next/Last] Success
Notes	URL to list companies: /company/list.do

Test #003

Description	List the companies in the system as an arbitrary user and display their profiles.
	Click on *View profile* and check that the view shows the following information: - Name(s) - Surname(s) - VAT. - E-mail. - Phone Number. - Address.
Expected	All the information shown above should be shown.
Outcome	Success random company display after several successful tries

See profile

Notes	URL to list companies: /company/list.do

Test #004

Description	List the companies in the system as an arbitrary user and display their profiles. Click on *Positions* and check that the view shows the following information: - Title. - Deadline. - Profile required. - Salary. - Ticker. - Company. - Status.
Expected	All the information shown above should be shown.
Outcome	You must click on all positions

List position

5 items found, displaying all items.
1

Title	Dead line	Profile Required	Salary	Ticker	Company	Status	
Position 1 of company 1	2019-01-08 19:48:00.0	Master in problems of frogs	6.8	GUST-8761	Gustavos S.A.	Final	Display
Position 2 of company 1	2022-03-01 19:48:00.0	Master in problems of frogs	26.2	GUST-9132	Gustavos S.A.	Final	Display
Position 4 of company 1	2022-03-01 19:48:00.0	Master in problems of frogs	26.2	GUST-9932	Gustavos S.A.	Final	Display
Position 2 of company 2	2021-08-04 19:48:00.0	Master in problems of Google	150.1	GOOG-0094	Google	Final	Display
Position 3 of company 2	2021-08-04 19:48:00.0	Master in problems of Google	150.1	GOOG-4994	Google	Final	Display

Notes	URL to list companies: /company/list.do

Test #005	
Description	List the companies in the system as an arbitrary user and list their positions. Check that the user can sort by: - Commercial name. - Address.
Expected	There should not appear any exception or error.
Outcome	FAIL They are not sortable. Although the position list from company works.
Notes	URL to list companies: /company/list.do

Test #006	
Description	Perform these tests for every role in the system, that is administrator, rookie, company, provider an auditor.
Expected	There should not appear any exception or error.
Outcome	SUCESS
Notes	URL to list companies: /company/list.do

Test #007	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	FAIL Spanish flag translate the system in to English, the opossite way happends with the ENG flag. The functionallity works.

	Profile required hasn't been translated to Spanish. 3 registros encontrados, mostrando todos los registros. 1 	Título	Fecha final	Profile required	Salario	Ticker	Compañia	Estado		 Position 1 of company 1	2019-01-08 19:48:00.0	Master in problems of frogs	6,8	GUST-8761	Gustavos S.A. Final	Mostrar Position 4 of company 1	2022-03-01 19:48:00.0	Master in problems of frogs	26,2	GUST-9932	Gustavos S.A.	Final	Mostrar
Notes	URL to list companies: /company/list.do

Use case 011: Edit my system configuration

Description

An administrator wants to edit the system configuration. In order to do so, he/she must log in and then edit it.

Access

Login – to authenticate in the system as an administrator
Menu > System configuration > Edit system configuration - to edit the system configuration

Tests

Test #001	
Description	You must log in as admin/admin. Click on *System configuration* on the Menu.
Expected	Check that the display view of the system configuration contains all the relevant information about system, that is, system name, banner, times results are cached, max results per search, country code and VAT tax.
Outcome	**VAT isn't shown.**
Notes	URL to display the system configuration: /sysconfig/administrator/display.do
Test #002	

Description	You must log in as admin/admin. Click on *Edit system configuration* on the *System configuration* view and fill the form with the following information: - System name: "". - System banner: "". - Time results are cached: "". - Max results per search: "". - Country code: "". - VAT: "". - Welcome message in Spanish: "¡Bienvenidos a Acme Rookies¡, ¡Somos el mercado de trabajo favorito de los profesionales de las TICs!". - Welcome message in English: "Welcome to Acme Rookies! We're IT hacker's favourite job marketplace!". - Breach notification in Spanish: "". - Breach notification in English: "". Click on S*ave*.
Expected	The system should redirect the user to the form with some validation errors: a "Must not be blank" in the system name and system banner fields; a "Time results are cached must be a value between 1 and 24" error at the time results are cached field; a "Max results per search must be a value between 1 and 100" at the max results per search field; a "Invalid country code" in the country code field; and "VAT must be a value between 0 and 1".
Outcome	**Validation errors are not shown.**
Notes	URL to edit the system configuration: /sysconfig/administrator/edit.do
Test #003	

Description	You must log in as admin/admin. Click on *Edit system configuration* on the *System configuration* view and fill the form with the following information: - System name: "Acme Rookies". - System banner: "https://i.imgur.com/7b8lu4b.png". - Time results are cached: "1". - Max results per search: "10". - Country code: "+034". - VAT: "0.21". - Welcome message in Spanish: "". - Welcome message in English: "". - Breach notification in Spanish: "". - Breach notification in English: "". Click on S*ave*.
Expected	The system should not let the user save the system configuration until a valid string is written in the Welcome message in Spanish and Welcome message in English fields.
Outcome	**It can be saved with POST hacking.**
Notes	URL to edit the system configuration: /sysconfig/administrator/edit.do
Test #004	
Description	You must log in as admin/admin. Click on *Edit system configuration* on the *System configuration* view and fill the form with the following information: - System name: "Acme Rookies". - System banner: "https://i.imgur.com/7b8lu4b.png". - Time results are cached: "1". - Max results per search: "10". - Country code: "+034". - VAT: "0.21". - Welcome message in Spanish: "¡Bienvenidos a Acme Rookies¡, ¡Somos el mercado de trabajo favorito de los profesionales de las TICs!". - Welcome message in English: "Welcome to Acme Rookies! We're IT hacker's favourite job marketplace!". - Breach notification in Spanish: "". - Breach notification in English: "".

	Click on *Save*.
Expected	When the user clicks on *Save* the system should save the changes and redirect to the welcome page. The tester shall go to *System configuration* and see that the changes were made successfully.
Outcome	**Works as expected.**
Notes	URL to edit the system configuration: /sysconfig/administrator/edit.do

Test #005	
Description	You must log in as admin/admin and edit the system configuration. Then click on *Cancel*.
Expected	The system must redirect you to the display of the system configuration.
Outcome	**Works as expected.**
Notes	URL to edit the system configuration: /sysconfig/administrator/edit.do

Test #006	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**Apart from the flags being the other way around, the text "Brecha notificacion en Inglés" should be translated as "Notificación de brecha en inglés".**
Notes	URL to edit the system configuration: /sysconfig/administrator/edit.do

Note from tester: when inputting invalid data on certain inputs (for example text in the VAT input) it redirects to welcome instead of showing the errors.

Use case 012: List problems

Description

A not authenticated user wants to list the problems from the system as a Company. In order to do so, the user firstly login and then list the problems.
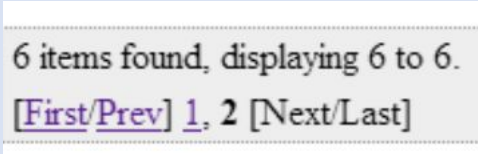

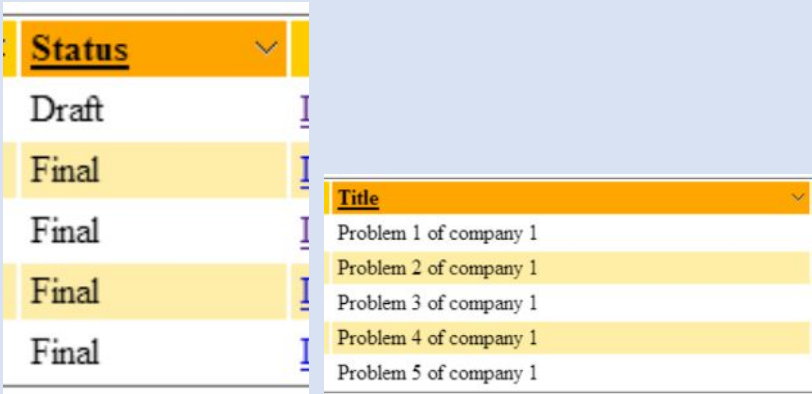

Access
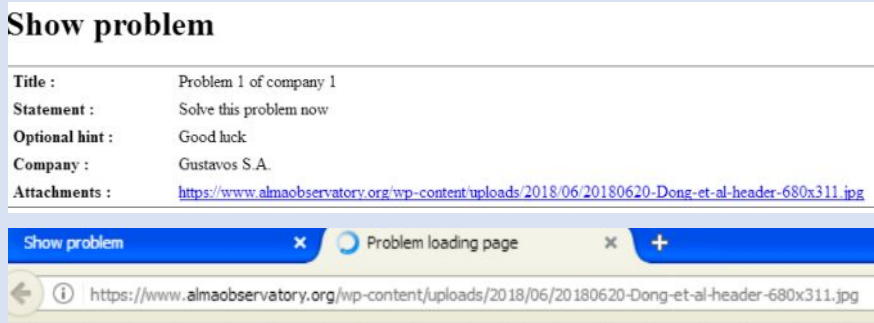

Login – to access the system as a company.
In the menu, "Login" and use the credentials company1/company1. Once logged in, go to Problems > List problems.
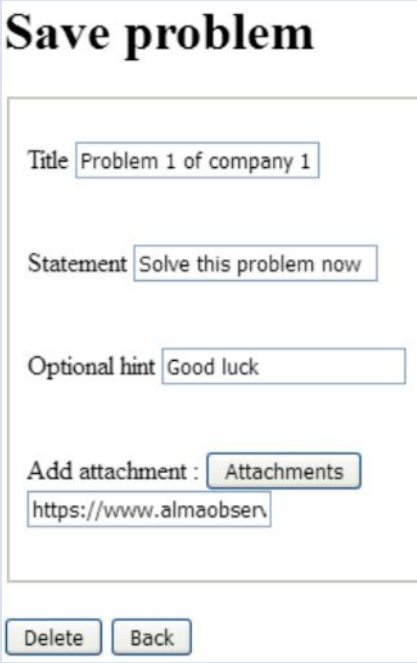

Tests

| Test #001	
Description	List the problems in the system as a company. Check that the listing shows the following information: - Company. - Title. - Optional hint. - Status.
Expected	All the information shown above should be displayed. Check that the edit and delete links are only in the draft mode problems.
Outcome	SUCCESS
Notes	URL to list problems: /problem/list.do
Test #002	

Description	List the problems in the system has pagination. Click on all the pagination links that are shown: *First*, *Prev*, *Next* and *Last*.
Expected	There should not appear any exception or error, and the page must be the same was expected.
Outcome	SUCCESS 6 items found, displaying 6 to 6. [First/Prev] 1, 2 [Next/Last]
Notes	URL to list problems: /problem/list.do

Test #003

Description	List the problems in the system. Click on all column headings, the result should be an alphabetical sorting of the rows.
Expected	All the information should be shown correctly.
Outcome	SUCESS **Status** ⌄ Draft Final Final Final Final **Title** ⌄ Problem 1 of company 1 Problem 2 of company 1 Problem 3 of company 1 Problem 4 of company 1 Problem 5 of company 1
Notes	URL to list problems: /problem/list.do

Test #004

Description	Click on the *Display* link of a row and check that the view shows the following information: -Title - Statement - Optional hint. - Company. - Attachments: click in the attachment link and see if open in a new windows.
Expected	All the information shown above should be shown.
Outcome	SUCCESS **Show problem** Title : Problem 1 of company 1 Statement : Solve this problem now Optional hint : Good luck Company : Gustavos S.A. Attachments : https://www.almaobservatory.org/wp-content/uploads/2018/06/20180620-Dong-et-al-header-680x311.jpg Show problem ✕ ◯ Problem loading page ✕ + ← ⓘ https://www.almaobservatory.org/wp-content/uploads/2018/06/20180620-Dong-et-al-header-680x311.jpg
$Notes	URL to display problems: /problem/display.do?Id=<id_problem>

Test #005	
Description	Do the same that in Test#004 in a incognito mode logged as company2/company2. Copy the url of the display view and copy that in the windows where you are logged as company1/company1.
Expected	There should not appear any problem, you must be redirect to another page.
Outcome	

	SUCCESS (¿)
Notes	URL to display problems: /problem/display.do?Id=<id_problem>

Test #006	
Description	Enter in the edit link of a draft mode problem.
Expected	There should appear a form to edit the problem.
Outcome	SUCCESS
Notes	URL to list problems: /problem/list.do

Test #007	
Description	You must repeat the test#006 and change the id of the url by other problem in final model of the list. You can see the id if you click in the display link.

Expected	You must see a form but without the save buttons.
Outcome	SUCCESS
Notes	URL to edit problems: /problem/edit.do<id_problem>

Test #008	
Description	You must repeat the test#007 and change the code with the code inspector to aggregate a submit button in the problem in the draft mode and save. You can copy the save button of the correct edit form.
Expected	You must see a form but without changes.
Outcome	SUCCESS

Notes	URL to edit problems: /problem/edit.do<id_problem>

Test #009	
Description	You must click on a edit link and press the Back button.
Expected	You should see the list of problems belonging to the logged user.

Outcome	SUCCESS
Notes	URL to edit problems: /problem/edit.do<id_problem>

Test #010

Description	You must click on a delete link of one draft mode.
Expected	You should see the list of problems with one less problem, that is the one you was deleted.
Outcome	SUCESS
Notes	URL to edit problems: /problem/list.do

Test #011

Description	You must display one problem in final mode, copy the id and use the delete link to that problem.
Expected	You should see the list of problems without changes.
Outcome	SUCESS
Notes	URL to edit problem: /problem/delete.do?Id=<id_problem>

Test #012

Description	Enter in incognito mode logged as company2 /company2 . Display a problem in draft mode and copy the id. Go to the other page where you are company1, paste the id and use the delete link to that problem.
Expected	You will be redirect to the welcome page. You should see the list of problems of the user company2 without changes.
Outcome	SUCESS company1 redirects to welcome page, nothing has been deleted.
Notes	URL to edit problem: /problem/delete.do?Id=<id_problem>

Test #013	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	FAIL Spanish flag translate the system in to English, the opossite way happends with the ENG flag. The functionallity works.
Notes	

Use case 013: List audits

Description

A not authenticated user wants to list the problems from the system as an Auditor. In order to do so, the user firstly login and then list the audits.

Access

Login – to access the system as an auditor.
In the menu, "Login" and use the credentials auditor1/auditor1. Once logged in, go to Audit > List audits.

Tests

Test #001	
Description	List the audits in the system as a auditor. Check that the listing shows the following information: - Moment. - Score. - Position. - Status.
Expected	All the information shown above should be displayed. Check that the edit and delete links are only in the draft mode audit.
Outcome	SUCCESS
Notes	URL to list audits: /audit/list.do
Test #002	
Description	List the audits in the system has pagination. Click on all the pagination links that are shown: *First*, *Prev*, *Next* and *Last*.

Expected	There should not appear any exception or error, and the page must be the same was expected.
Outcome	SUCCESS
Notes	URL to list audits: /audit/list.do

Test #003

Description	List the audits in the system for logged auditor. Click on all column headings, the result should be an alphabetical sorting of the rows.
Expected	All the information should be shown correctly.
Outcome	SUCCESS
Notes	URL to list audits: /audit/list.do

Test #004

Description	Click on the *Display* link of a row and check that the view shows the following information: - Auditor username. - Moment. - Score. - Position title. - Text.
Expected	All the information shown above should be shown.
Outcome	SUCCESS
Notes	URL to display audits: /audit/display.do?Id=<id_audit>

Test #005

Description	Do the same that in Test#004 in a incognito mode logged as auditor2/auditor2. Copy the url of the display view and copy that in the windows where you are logged as auditor1/auditor1.
Expected	There should not appear any audit, you must be redirect to another page.
Outcome	SUCCESS
Notes	URL to display audits: /audit/display.do?Id=<id_audit>

Test #006	
Description	Enter in the edit link of a draft mode audit.
Expected	There should appear a form to edit the audit.
Outcome	SUCCESS
Notes	URL to list audits: /audit/list.do

Test #007	
Description	You must repeat the test#006 and change the id of the url by other audit in final model of the list. You can see the id if you click in the display link.
Expected	You must see a form but without the save buttons.
Outcome	SUCCESS
Notes	URL to edit audits: /audit/edit.do<id_audit>

Test #008	
Description	You must repeat the test#007 and change the code with the code inspector to aggregate a submit button in the problem in the draft mode and save. You can copy the save button of the correct edit form of other in draft mode.
Expected	You must be redirect to another page.

Outcome	SUCCESS
Notes	URL to edit audit: /audit/edit.do<id_problem>

Test #009	
Description	You must click on a edit link and press the Back button.
Expected	You should see the list of audits belonging to the logged user.
Outcome	SUCCESS
Notes	URL to edit audits: /audit/edit.do<id_audit>

Test #010	
Description	You must click on a delete link of one draft mode.
Expected	You should see the list of audits with one less audit, that is the one you was deleted.
Outcome	SUCCESS
Notes	URL to edit audits: /audit/list.do

Test #011	
Description	You must display one audit in final mode, copy the id and use the delete link to that audit.
Expected	You should see the list of audits without changes.
Outcome	SUCCESS
Notes	URL to edit audit: /audit/delete.do?Id=<id_audit>

Test #012	
Description	Enter in incognito mode logged as auditor2 /auditor2 . Display a audit in draft mode and copy the id. Go to the other page where you are auditor1, paste the id and use the delete link to that audit.
Expected	You should see the list of audits of the user auditor2 without changes.
Outcome	SUCCESS
Notes	URL to edit audit: /audit/delete.do?Id=<id_audit>

Test #013	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	Spanish flag translate the system in to English, the opposite way happens with the ENG flag. SUCCESS
Notes	

Use case 014: List positions

Description

A not authenticated user wants to list the positions from the system as a Company. In order to do so, the user firstly login and then list the company.
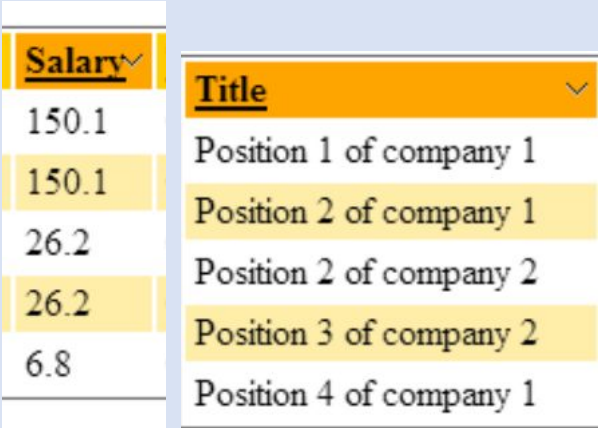

Access

Login – to access the system as an auditor.
In the menu, "Login" and use the credentials company1/company1. Once logged in, go to Positions > My positions.

**Note from tester : There is no auditor with the account company1/company1, it's a company.**

Tests

Test #001	
Description	List your positions in the system as a company. Check that the listing shows the following information: - Title. - Deadline. - Profile Required. - Salary. - Ticker. - Company. - Status. - Is cancelled.
Expected	All the information shown above should be displayed. Check that the edit and delete links are only in the draft mode position.

Expected	Education data created successfully, being redirected to list of Education data.
Outcome	**All correct.**
Notes	URL to create a data:
	/xxxData/rookie/create.do?curriculaId=<id_currentCurricula>

Test #011	
Description	Create a wrong education data with the following information:
	- Degree: "IA".
	- Institution: "ETSII".
	- Mark: "8.6".
	- Start date: "12/12/2010 10:54".
	- End date: "12/12/2008 10:54"
Expected	You will be redirected to education data list but its not going to be created. So, end date is before than start date.
Outcome	**All correct.**
Notes	URL to create a data:
	/xxxData/rookie/create.do?curriculaId=<id_currentCurricula>

Test #012	
Description	Create an education data with every empty field.
Expected	Expect following message errors.
	For degree: Must not be blank.
	For institution: Must not be blank.
	For start date: Cannot be null.
Outcome	**All correct.**

Notes	URL to create a data: /xxxData/rookie/create.do?curriculaId=<id_currentCurricula>
Test #013	
Description	Edit an education data correctly. You must display it and press the edit button. Change the degree content for this one: "Can edit this data". And save it.
Expected	Listed the edited education data.
Outcome	**All correct.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>
Test #014	
Description	Edit an education data wrongly. You must display it and press the edit button. Delete the degree content and save it.
Expected	Degree must not be blank.
Outcome	**All correct.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>
Test #015	
Description	Login as rookie1/rookie1 and edit an education data. Copy this url and paste it in an incognito window logged previously as rookie2/rookie2.

Expected	Some restriction by the system.
Outcome	**Error 404 forced.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>

Test #016	
Description	Delete correctly an education data. Just delete the same education data that you have created and edited successfully before.
Expected	Redirect to list of education data without this one.
Outcome	**All correct.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>

Test #017	
Description	Delete wrongly an education data. Just edit the same education data that you have created and edited successfully before. Clean the degree input and try to delete.
Expected	Text: must not be blank
Outcome	**The education data is deleted. Fixed.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>

Test #018	

Description	Check cancel button redirects you to the correct list of education data.
	Edit one education data of rookie1, input some invalid data like an invalid date in start date field. Try to save it but the system will not be able to, so then press the cancel button.
Expected	Redirect to list of education data.
Outcome	**All correct.**
Notes	URL to edit a data:
	xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>

Test #019	
Description	Create a valid position data with the following information: - Title: "Software engineer". - Description: "Senior". - Start date: "12/12/2010 10:54". - End date: optional
Expected	Position data created successfully, being redirected to list of position data.

Description	Edit a position data correctly. You must display it and press the edit button. Change the title content for this one: "Can edit this data". And save it.
Expected	Listed the edited position data.
Outcome	**All correct.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>
Test #023	

Description	Edit a position data wrongly. You must display it and press the edit button. Delete the title content and save it.
Expected	Title must not be blank.
Outcome	**A "Commit error" also appears.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>
Test #024	
Description	Login as rookie1/rookie1 and edit an position data. Copy this url and paste it in an incognito window logged previously as rookie2/rookie2.
Expected	Some restriction by the system.
Outcome	**Error 404 forced.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>
Test #025	
Description	Delete correctly a position data. Just delete the same position data that you have created and edited successfully before.
Expected	Redirect to list of position data without this one.
Outcome	**All correct.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>

Test #026	
Description	Delete wrongly an position data. Just edit the same position data that you have created and edited successfully before. Clean the title input and try to delete.
Expected	Title: must not be blank
Outcome	**All correct.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>

Test #027	
Description	Check cancel button redirects you to the correct list of position data. Edit one position data of rookie1, input some invalid data like an invalid date in start date field. Try to save it but the system will not be able to, so then press the cancel button.
Expected	Redirect to list of position data.
Outcome	**All correct.**
Notes	URL to edit a data: xxxData/rookie/edit.do?dataId=<id_data>&curriculaId=<id_current Curricula>

Use case 022 Display dashboard

Description

An administrator wants to see the statistics board of the system.

Access

Login – to authenticate in the system

Tests

Test #001	
Description	You must log in as admin/admin. Click on *Dashboard* on the Menu.
Expected	Check that all the data shown on the board corresponds to reality.
Outcome	**DATA INVALID: The minimum company audit score should be 0, since it is calculated via homothetic transformation.**
Notes	URL to display the dashboard: /statistics/administrator/display.do

Test #002	
Description	You must repeat test #001 of this test, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**All correct.**
Notes	

Use case 023: Export data account

Description

An actor wants download all his data account.

Access

Login – to authenticate in the system

Tests

Test #001	
Description	You must login as admin/admin or rookie1/rookie1 or company1/company1 or provider1/provider1 or auditor1/auditor1. Click on *Export data* on the Menu.
Expected	Check that all the data shown on the file.txt is correct.
Outcome	**All correct.**
Notes	URL to export data : /

Use case 024: Delete account as an actor

Description

An actor wants to delete all his data from the system.

Access

Login – to authenticate in the system
Edit profile - to edit the profile of the provider

Tests

Test #001	
Description	You must login as admin/admin or rookie1/rookie1 or company1/company1 or provider1/provider1 or auditor1/auditor1. Click on "edit profile"-> delete account link.

Use case 025: List Items

Description

A not authenticated user wants to list the Items from the system as a Provider. In order to do so, the user firstly login and then list the items.

Access

*Login* – to access the system as a provider.
In the menu, "Login" and use the credentials provider1/provider1. Once logged in, go to My ítems.

Tests

Test #001	
Description	List the items in the system as a provider. Check that the listing shows the following information: - Name. - Description. - Provider. - Display link. - Edit link. - Delete link.
Expected	All the information showed above should be displayed.
Outcome	SUCCESS
Notes	URL to list problems: /item/list.do
Test #002	

Description	List the items in the system has pagination. Click on all the pagination links that are shown: *First*, *Prev*, *Next* and *Last*.
Expected	There should not appear any exception or error, and the page must be the same was expected.
Outcome	**SUCCESS** 20 items found, displaying 11 to 15. [First/Prev] 1, 2, **3**, 4 [Next/Last]
Notes	URL to list item: /item/list.do

Test #003

Description	List the items in the system. Click on all column headings, the result should be an alphabetical sorting of the rows.
Expected	All the information should be shown correctly.
Outcome	SUCCESS They are sortable althoug i cannot ensure its working properly because they were previously ordered. Provider ∨ Alberto Alberto Alberto Alberto Alberto
Notes	URL to list items: /item/list.do

Test #004

Description	Click on the *Display* link of a row and check that the view shows the following information: -Provider - Name - Description. - Links. - Pictures:
Expected	All the information shown above should be shown.
Outcome	**All** **correct.** ### Display of Item | Provider :	Alberto
Name :	Item 19
Description :	Item default
Links :	https://www.eff.org/imggle-spy-eye.png
Pictures :	https://www.eff.org/imggle-spy-eye.png | Back *Note: should images appear as links or as pictures?*
Notes	URL to display items: /item/display.do?itemId=<id_item >

Test #005	
Description	Do the same that in Test#005 in a incognito mode logged as provider2/ provider2. Copy the url of the display view and copy that in the windows where you are logged as provider1/provider1.
Expected	There should not appear any problem, you must be redirect to another page.
Outcome	**SUCCESS**
Notes	URL to display items: /item/display.do?itemId=<id_item >

Test #006	
Description	You must click on a edit link and press the Back button.
Expected	You should see a form edit item.
Outcome	**SUCCESS**
Notes	URL to edit item: /item/edit.do?itemId<id_item>

Test #007	
Description	You can list and display ítems. Browse the list of items and navigate to their providers. You can do the test 1 without authenticating yourself in the system
Expected	You should see the list of ítems without authenticating. You can also see the owner of ítems.
Outcome	**SUCCESS on both cases** See profile Personal data Make1 User photo Name(s): Alberto VAT: ES34567091 E-mail: alramirez@mail.com Phone number: +34611987654 Adress: C/ Puente 545 (Sevilla) List providers |		Commercial name	E-mail	Phone number	Adress
---	---	---	---	---	---
View profile	Items	Make1	alramirez@mail.com	+34611987654	C/ Puente 545 (Sevilla)

View profile	Items	Make5	alramirez@mail.com	+34611987654	C/ Puente 545 (Sevilla)
View profile	Items	Make6	alramirez@mail.com	+34611987654	C/ Puente 545 (Sevilla)	
Notes	URL to list items: /item/listAll.do

Test #008	
Description	You can see a delete link. When you click on it, the item will be deleted and you will remain in the view.
Expected	Check that items not in the system.
Outcome	SUCCESS
Notes	URL to list items: /item/list.do

Test #009	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	FAIL Spanish flag translate the system in to English, the opossite way happends with the ENG flag. The functionallity works.
Notes	

Use case 027: Edit/create item

Description

A provider wants to edit/create a item. In order to do so, he/she must log in and then edit/create it.

Access

Login – to authenticate in the system as an provider
In the menu, "Login" and use the credentials provider1/provider1. Once logged in, go to *Myitems > Edit Items or new ítems on the menu* to create a new ítem.

Tests

Test #001	
Description	Click on new Item.You must enter a Name, Description ,Link , Picture and press save button.
Expected	>My items, go to the last page of the list, click the display last item to check the new item.
Outcome	SUCCESS **List of Item** 15 items found, displaying 11 to 15. [First/Prev] 1, 2, 3 [Next/Last] 	Name ×	Description ×	Provider ×				 Item 25	Item default	Alberto	Display	Edit	Delete Item 26	Item default	Alberto	Display	Edit	Delete Item 27	Item default	Alberto	Display	Edit	Delete Item 28	Item default	Alberto	Display	Edit	Delete nuevo	nuevo	Alberto	Display	Edit	Delete
Notes	URL to create the item: /item/create.do
Test #002	
Description	In my ítems press edit ítem press edit, and put a empty Name. Click on S*ave*.
Expected	The system should redirect the user to the form with some validation errors: a "Must not be blank" in the Name input.

Outcome	SUCCESS **Edit Item** Name [ ] *Must not be blank* Description [nuevo] Add Link : [Add] [https:/:www.coogole.com] Add Picture : [Add] [https:/:www.coogole.com] [Save] [Cancel]
Notes	URL to edit the Item: /item/edit.do?Id=<id_item>

Test #003	
Description	Edit the same item again and put all the fields empty.
Expected	The system should redirect the user to the form with some validation errors: a "Must not be blank" in Name, Description and Link.
Outcome	SUCCESS **Edit Item** Name [ ] *Must not be blank* Description [ ] *Must not be blank* Add Link : [Add] *Must not be blank* Add Picture : [Add] [Save] [Cancel]
Notes	URL to edit the item: /item/edit.do?Id=<id_item>

Test #004	
Description	In the previous error windows, press the Cancel button.

Expected	The system should redirect the user to the list of items.
Outcome	SUCCESS
Notes	URL to edit the item: /item/edit.do?Id=<id_item>

Test #006	
Description	Check with an incognito window logged with another actor that you can not create and edit a item that is not your property.
Expected	You must be redirect to another page.
Outcome	As provider2 SUCCESS localhost/Acme-Rookie/item/edit.do?itemId=1240 Acme-Rookie Co., Inc. POSITIONS MY SPONSORSHIPS ITEMS COMPANIES PROVIDERS PROFILE (PROVIDER2) You don't have permission to access this page. Terms and conditions Copyright © 2019 Acme-Rookie Co., Inc.
Notes	URL to edit the item: /item/edit.do?Id=<id_item> /item/create.do

Test #007	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	FAIL Spanish flag translate the system in to English, the opposite way happens with the ENG flag. The functionality works.
Notes	URL to edit the item: /item/edit.do?Id=<id_item>

Use case 028: List Sponsorship

Description

A not authenticated user wants to list the sponsorship from the system as a Provider. In order to do so, the user firstly login and then list sponsorship. If you have not created any sponsorship you must go to the positions view and sponsor a position.

Access

Login – to access the system as a provider.
In the menu, "Login" and use the credentials provider1/provider1. Once logged in, go to My sponsorships.

Tests

Test #001	
Description	List the items in the system as a provider. Check that the listing shows the following information: - Banner. - link to sponsored position. - link to provider profile. - Display link. - Edit link. - Delete link.
Expected	All the information shown above should be displayed.
Outcome	**Works as expected.**
Notes	URL to list sponsorship: /sponsorship/list.do
Test #002	
Description	List the sponsorships has pagination.(You must sponsor at least 5 times in the same position.) Click on all the pagination links that are shown: *First*, *Prev*, *Next* and *Last*.

Expected	There should not appear any exception or error, and the page must be the same was expected.
Outcome	**Pagination doesn't work, it throws an 404 error when clicking Next.**
Notes	URL to list sponsorship: /sponsorship/list.do

Test #004	
Description	Click on the *Display* link of a row and check that the view shows the following information: -Provider - Sponsored position - Banner. -Back button.
Expected	All the information showed above should be shown.
Outcome	**Works as expected.**
Notes	URL to display sponsorship: /sponsorship /display.do? sponsorshipId =<id_ sponsorship>

Test #005	
Description	Do the same that in Test#004 in a incognito mode logged as provider2/provider2. Copy the url of the display view and copy that in the windows where you are logged as provider1/provider1.
Expected	There should not appear any problem, you must be redirect to another page.
Outcome	**Works as expected.**
Notes	URL to display sponsorship: /sponsorship /display.do? sponsorshipId =<id_ sponsorship>

Test #006	
Description	You must click on a edit link and press the Back button.

Expected	You should see a form edit item.
Outcome	**Works as expected.**
Notes	URL to edit sponsorship: /sponsorship/edit.do?sponsorshipId<id_sponsorship>

Test #007	
Description	You can see a delete link. When you click on it, the sponsorship will be deleted and you will remain in the view.
Expected	Check that sponsorship is not in the system.
Outcome	**Works as expected.**
Notes	URL to list sponsorship: /sponsorship/list.do

Test #008	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**Apart from the flags being the other way around, everything works the same as above, the only translation error is "Posición patrocinada" instead of "Puesto patrocinado" in the sponsorship list.**
Notes	

Use case 029: Edit/create sponsorship

Description

A provider wants to edit/create a sponsorship. In order to do so, he/she must log in and then edit/create it.

Access

Login – to authenticate in the system as an provider
In the menu, "Login" and use the credentials provider1/provider1. Once logged in, go to *My sponsorships> Edit sponsorships or create a new sponsorship by going to the position view.*

Tests

Test #001	
Description	Click on new sponsorship.You must enter a banner and press save button.
Expected	In My sponsorships, go to the last page of the list, click the display last item to check the new sponsorship.
Outcome	**The sponsorship is created correctly, but it doesn't have the target URL attribute as requested in the requirements, it only has the banner URL. Also, the credit card doesn't seem to do anything, as changing the expiration date to a past date doesn't prevent the sponsorship from showing.**
Notes	URL to display the sponsorship: /sponsorship/create.do?sponsorshipId=<id_sponsorship>
Test #002	
Description	In my sponsorships press edit ítem press edit, and put a empty banner. Click on S*ave*.
Expected	The system should redirect the user to the form with validation error: a "Must not be blank" in the banner input.
Outcome	**Works as expected.**
Notes	URL to edit the sponsorship: /sponsorship/edit.do?sponsorshipId=<id_ sponsorship>

Test #004	
Description	In the previous error windows, press the Cancel button.
Expected	The system should redirect the user to the list of items.
Outcome	**Works as expected.**
Notes	URL to edit the sponsorship: /sponsorship/edit.do?sponsorshipId=<id_ sponsorship>
Test #006	
Description	Check with an incognito window logged with another actor that you can not create and edit a sponsorship that is not your property.
Expected	You must be redirect to another page.
Outcome	**Although it doesn't let you edit another sponsorship when accesing it by the edition URL, it can be edited changing the ID of the form of another edition (that is, accesing an edition page and changing the ID of the form using the developer console of the browser, also known as *Inspect element*). Additionally, it throws a 500 error about domain.SystemConfiguration.breachNotification when doing it this way.**
Notes	URL to edit the sponsorship: /sponsorship/edit.do?sponsorshipId=<id_ sponsorship>

Test #007	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	**Apart from the flags being the other way around, everything is the same as above.**
Notes	URL to edit the sponsorship: /sponsorship/edit.do?sponsorshipId=<id_ sponsorship>

Use case 030: Submit an application as a Rookie

Description

The corresponding Rookie submitted a solution to the problem. Click on the menu "My applications" and the system will redirect you to a list of applications. Select one with status pending and click the link *Submit.*

Access

In the menu, "Login" and use the credentials rookie1/rookie1. Once logged in, go to Applications > My Applications.

Tests

Test #001	
Description	Choose the position you want to apply for and then click on the link edit and put an explanation
Expected	The application is sent and the system redirects you to the list of Check that the application is in submitted status
Outcome	Can't put an explanation
Notes	
Test #002	
Description	Make post hacking copy the url and open an secret window logged as another rookie and check that you do not have Access.

Expected	You can't see that edit view.
Outcome	All correct
Notes	URL of the option edit Apply: / application/edit.do?applicationId=<idApplication>

Test #003	
Description	Order the list of applications of a rookie by any of the attributes (Application moment, position, submitted moment and status.)
Expected	The order must change accordingly to the specified parameters.
Outcome	All correct
Notes	

Test #004	
Description	Click on the "Display" option.
Expected	In each row, the option display must redirect to de display view of said application.
Outcome	All correct

Test #005	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	All correct
Notes	

Use case 031: Reject an application as a Company

Description

The corresponding company rejected an application. Click on the menú in "Received applications", then I see the applications that are not rejected and You reject the one you want. Check that the status has changed to rejected.

Access

In the menu, "Login" and use the credentials company1/company1. Once logged in, go to "Received applications".

Description	Make post hacking copy the url and open an secret window logged as another company and check that you do not have Access.
Expected	You can't see that list view.
Outcome	All correct
Notes	URL of the received applications: /application/listCompany.do
Test #003	

Description	Click on the "any attribute column".
Expected	See how each attribute is sorted alphanumerically
Outcome	Can't be done by position or submited moment

Test #004	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	All correct but the same errors
Notes	

Use case 032: Accept an application as a Company

Description

The corresponding company accepted an application. Click on the menú in "Received applications", then I see the applications that are not accepted and You accept the one you want. Check that the status has changed to accepted.

Access

In the menu, "Login" and use the credentials company1/company1. Once logged in, go to "Received applications".

Tests

Test #001	
Description	Choose the application you want to accept application and accept link.
Expected	The application is sent and the system redirects you to the list of Check that the application is in accepted status
Outcome	All correct
Notes	URL of the received applications: /application/listCompany.do
Test #002	
Description	Make post hacking copy the url and open an secret window logged as another company and check that you do not have Access.
Expected	You can't see that list view.
Outcome	All correct
Notes	URL of the received applications: /application/listCompany.do
Test #003	
Description	Click on the "any attribute column".

Expected	See how each attribute is sorted alphanumerically
Outcome	Can't be done by position or submited moment

Test #004	
Description	You must repeat all tests of this tests, but now using the system in Spanish.
Expected	Everything should be displayed in Spanish.
Outcome	All correct but the same errors
Notes	

Use case 033: Terms and conditions

Description

A non-authenticated or authenticated actor can find out about the terms and conditions of the web application.

Access

The link of terms and conditions can be found in the footer of the page.

Tests

Test #001	
Description	A non-authenticated or authenticated actor can find out about the terms and conditions of the web application.
Expected	The client is expected to be informed about the terms and conditions and to comply with the GDPR regulations.
Outcome	All correct
Notes	URL to terms and conditions: /terms.do

Test #002	
Description	You must repeat the previous test, but now using the system in Spanish.

Expected	Everything should be displayed in Spanish.
Outcome	**All correct**
Notes	

Use case 034: Search positions

Description

A non-authenticated actor logs in as a rookie, then clicks on the menu "search position" and you can search for a keyword, a deadline, a minimum salary, and/or a maximum deadline.
Access

On the menu, "Login" and use the credentials rookie1/rookie1. Once logged in, go to "search position".

Tests

Test #001	
Description	You must display a imput keyword, deadline, minimum salary, and maximum deadline.
Expected	Check that everything is in order.
Outcome	**All correct**
Notes	URL of the finder: /finder/rookie/search.do
Test #002	
Description	You can search by a keyword and/or deadline and/or minimum salary and/or maximum deadline.
Expected	Check that it returns the positions it should return.
Outcome	**All correct**

Notes	URL of the finder: /finder/rookie/search.do

Test #003	
Description	If you hit the search button with all fields empty returns all positions in final mode.
Expected	Check that it returns the positions it should return.
Outcome	**All correct**
Notes	URL of the finder: /finder/rookie/search.do

Test #004	
Description	Update finder by searching other field.
Expected	Check that it returns the positions it should return.
Outcome	**All correct**
Notes	URL of the finder: /finder/rookie/search.do

Test #005	
Description	Make post hacking copy the url and open an secret window logged as another company and check that you do not have Access.
Expected	You can't see positions returns.
Outcome	**All correct**
Notes	URL of the finder: /finder/rookie/search.do
